## A ROUND OF TALK.

### An Old Wagon Road.

By Harriet Whitney Durbin  
It holds, in a wide and easy curve, The gold-dust mist of a willow clump, And takes the sun, in a laye, To clear the roots of a half-charred stump.  
Yonder, ahead, where the slant is steep, Turning aside from a primrose lane, The cut of the wheel lies sharp and deep.  
In clay that gathered the slow spring rain,  
But wild sweet clover in time to heal The scars long left by the wagon wheel.  
Adown the hollow it runs away With errand swift of a settler's pack! The brown leaf-layers so densely lie They hold the trail by the vaguest trace!  
And lower still where the mold is wet With trickling pearls of a wispie spring.  
The slender arc of the track is set, A couch for the wood-weeds' blossoming.

Across the hill, on the other side, A new road runs to the village rim; Its bed is graveled and hard and wide; No star-weeds tangle along its brim. It travels on through the sun's hot haze With naught of pausing to doze or dream!  
No swerve it follows, to left or right— No luring dip to a shade-cool stream, And the old road lies its way alone! A vagrant, careless of long neglect: Witch-hazel-thricket and bramble-growth,  
It sinks in a hay retrospect, And inch by inch as the wild things creep Colder and thicker with web and skein.  
It lapses into a placid sleep, A part, once more, of the wood's domain.  
And wild sweet clover at last shall heal The scars long left by the wagon wheel.

**TELEPHONES.**—There is quite a protest from certain citizens and patrons of the telephone service in the town and county over the raise in rates which the company has just put into operation. There was some talk of an organized resistance to paying the increase but the matter has not taken any definite shape as yet. It seems to us that this protest on the part of the telephone subscribers comes too late to be effective. More than a year ago the Board of Trustees of the town of Springfield advertised and sold a telephone franchise for the town granting to the purchaser certain privileges such as establishing and maintaining a telephone exchange and the running of lines through the streets and etc. This franchise was duly advertised and sold at public outcry and the Cumberland Telephone and Telegraph Co. became the purchaser. In the contract which was made with the town the rate of charges for their service were specified. The telephone company agreed to establish three exchanges in the county namely at Mooresville, at Willsburg and at Mackville, and to put in a first class metallic service throughout the county. This they were to do before the new schedule of rates was to become effective. The company has faithfully carried out its part of the agreement. New lines have been extended throughout the county and the three new exchanges have been put into operation. In fact it is said that the Cumberland Telephone Co. has expended \$75,000 on its plant in this county. Certain it is that it has established a first class service and has carried out its part of the contract. It is said that the new rate which is to be enforced in excess of the rate charged in other towns. This may be true but all of that should have been considered before the franchise was granted and the contract made. Of course citizens can refuse to take the service and order their telephones out, but the Cumberland Telephone Co. occupies the field and it is up to the people to accept the rate or do without the service. Harrodsburg, Lebanon, Bardonia and other towns are protesting, but the case is different in these towns, inasmuch as they have not sold any franchise to the telephone people. The franchise, however, does not give the exclusive right to the Cumberland Telephone Co.

but it is not likely that any other company will go to the expense of putting in another plant under the circumstances.

**MUST.**—The old Board of Town Trustees is being censured, we believe unjustly, for granting these privileges, to the telephone company. The matter was thoroughly discussed at the time and the trustees acted as they thought for the best interests of the town. The board was urged to act so as to secure a better telephone service. Citizens from out in the county and from the smaller towns of the county were especially clamorous that the arrangements should be made that would secure for them these extra exchanges and better service. It was to please the residents of county districts, who were demanding such action, as much as any other thing, which caused the Trustees to act. We hope the matter between the company and its subscribers will be adjusted for Washington county certainly has now one of the best and most complete telephone services of any county in the state.

**McCREARY.**—If post election predictions go for anything Washington county will go for James B. McCreary for U. S. Senator. Not only is McCreary strong on his own account with a large number of the Democrats of the county, but many are for him for the reason that they are opposed to Beckham and the administration machine—so called. It is understood that an effort will be made to get McCreary to make a speech in Springfield before the campaign is over. A large crowd of admirers will go to Lebanon Saturday to hear him speak there.

### The Breath of Life.

It is a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chief study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by C. J. Haydon, druggist. Price 50c and \$1. Trial bottle free.

### Shocking Death.

The sudden and mysterious death of Mr. Samuel G. McElroy, which occurred at his home five miles from this city, Wednesday, Sept. 5, 1906, was a great shock to the entire community.  
Mr. McElroy left his home about 9 o'clock that morning to go, it was thought, over his farm. When he did not return at noon, the family became alarmed and went in search of him. His dead body was found shortly afterwards by his son, Harvey, just inside the door of a cabin, almost in sight of his home. Near his corpse was a shotgun one barrel of which contained an empty cartridge. Upon examination it was found that the load of shot had entered his left side, penetrating his heart and inflicting a wound that must have caused instant death. Whether the terrible affair was due to an accident, or was self-inflicted may, perhaps, never be known, but his friends believe that his great misfortune was the result of an accident.  
The deceased was one of Marion county's prominent citizens and farmers and by marriage and blood was connected with many of the county's leading families. For many years he was a leader locally in the ranks of the Democratic party, serving considerable time as chairman

## For Congress

We are authorized to announce  
M. L. HEAVIN,  
of Ohio county, as a candidate for  
Congress from the Fourth Congress-  
ional district on the Republican  
ticket. Election November 6, 1906.

We are authorized to announce  
Robert Noe  
as a candidate for the office of Clerk  
of the Washington Circuit Court.  
Subject to the action of the Demo-  
cratic party.

Mr. Bryan's utterances are  
being commented on and are  
attracting attention everywhere.  
A leading Democrat in Washing-  
ton in an interview states that  
he believes Mr. Bryan is absolutely  
honest in his Government  
ownership idea, just as he was  
on the money question ten years  
ago. He adds that he believes  
Mr. Bryan will stand by his  
utterances until he sees them  
besten in the next national con-  
vention.

Louisville did herself proud  
yesterday in her reception to  
Hon. William Jennings Bryan.  
The city was crowded with peo-  
ple from all over Kentucky and  
from other southern states and  
a right royal welcome was given  
the great Commoner. A great  
street parade, a reception, a  
banquet and a great gathering  
and speech-making in the eve-  
ning at the new armory building  
were features of the day's enter-  
tainment.

New York politics are becom-  
ing interesting. The Indepen-  
dence League convention held  
two sessions in Carnegie Hall.  
It was decided to name a full  
ticket for State officers and this  
ticket will be nominated to-day.  
Hissses for W. T. Jerome and a  
big demonstration for W. R.  
Hearst were features of the  
evening session.

## FORGOTTEN.

Now is the time to begin to use  
Bourbon-Hog Cholera Remedy, if  
you want to keep your hogs free from  
disease. We will sell you a gallon of  
this remedy, you can use it for thirty  
days and if it does not keep your  
hogs in perfect health during this  
time, you need not pay for the medicine.  
Just this the fairest propo-  
sition you ever heard of. Cost only 5  
cents per month for each hog and the  
extra gain in flesh caused from its  
use more than pays for the cost of the remedy.

## FIFTY CENTS

In some conditions the  
pain from the use  
of Scott's Emulsion is  
very rapid. For this  
reason we put up a  
fifty-cent size, which is  
enough for an ordinary  
cough or cold or useful  
as a trial for babies  
and children. In other  
conditions the gain is  
slower—health cannot  
be built up in a day.  
In such cases Scott's  
Emulsion must be taken  
as nourishment; a food  
rather than a medicine.  
It's a food for tired and  
weak digestions.

port so many as being on the

two weeks. Bro. Coley an  
able evangelist, of Louisville,  
has delivered a series of ex-  
cellent sermons and a number of ad-  
ditions were received and the  
church much revived. Bro.  
Gossage's time as pastor has ex-  
pired and he is again at the  
Seminary. As yet no pastor has  
been called.

dwells with particular ten-

say about Mt. Zion. Can any  
one tell why?

We had another terrific rain  
through this section on last  
Sunday morning.

Farmers Take Notice.

Bourbon Hog Cholera Remedy is the  
very best hog remedy in the world.  
Use it as a preventive and if it does  
not keep your hogs healthy and free  
from diseases, you need not pay us  
a cent for the remedy. Cholera costs  
only 5 cents per month for each hog  
and the extra gain in flesh, caused  
from its use, will more than pay for  
the medicine.

W. J. Bryan, and I suppose he  
deserves it in a certain degree, but what  
about Taylor? The one who deserted a  
state because of undue action in  
its behalf. Their bright de-

cartoon sufficient to do this man  
justice. His awfulness is beyond  
conception."

We had a 15c minstrel at the  
schoolhouse here Monday night.  
I mean the price of admission  
was 15c, but they did not invite  
"Uno" and said emphatically  
they would not give me any com-  
plimentary ticket therefore I  
cannot give complete details of  
the performance. Others say it  
was worth the price to anyone  
who "didn't attend."

To Clean Laces.  
To clean lace equal to new. Take  
white muslin round a bottle, tack  
the lace on it, make a snail of fine soap  
add a little borax and wash the lace  
by rubbing with the hands. Rinse  
well and dry in the sun. Then take  
off the lace. It looks like new.

Freezing Note.  
It is a good thing to know that if  
meat is frozen and tastes from being  
frozen, it is not a sign of disease. It  
is merely a sign of freshness. It is  
differently frozen by soaking them in  
lukewarm water. This applies to all  
sorts of meat, and it is surprising to see  
how they are improved.

Wash Silk Stockings.  
Make a lather with lukewarm water  
and good soap. Put the stockings in  
this, adding a teaspoonful of vinegar  
to a gallon of water, if they are deli-  
cate colors. Let soak ten minutes, then  
wash by pressing and squeezing them  
between the hands. Silk stockings must  
not be rubbed. Iron through two lots  
of clean lukewarm water, press dry  
as you can, pull into shape, and hang  
in a airy, shady place till almost dry.  
Then iron.

To Restore Faded Colors.  
Alum water will restore most faded  
colors. Brush the faded article with  
a cloth dipped in alum water, and  
wash with clean water. Alum water  
is made by dissolving a teaspoonful of  
alum in a quart of water.

## WASHINGTON LETTER

[Special Correspondence.]  
In point of architecture Washington  
will soon be one of the most beautiful  
cities in the world. It is not the case  
now. The dream of the great man for  
whom the national capital was named  
will practically be realized.

Supreme Court Building.  
A fine building for the supreme  
court is in contemplation. The rail-  
roads are expending \$12,000,000 on a  
magnificent union passenger depot.  
No railroads are to be built across  
the Potomac river, and the largest  
central bridge in the world will span  
that river.

The Capitol Kitchen.  
During the last session of congress  
Elliot Woods, superintendent of the  
Capitol, reported to the senate rules  
committee an appropriation of \$17,000  
with which to go ahead and make of  
the senate kitchen and restaurant a  
clean and sanitary place. He also  
got from the powers that be the  
house permission to spend a tidy sum  
for the overhauling of the house  
kitchen and its enlargement to twice  
its present size.

To Banish Rats.  
Some idea of the conditions under  
which the senate cooks prepared the  
dinners in the past may be given when  
it is stated that the senate kitchen was  
a regular paradise for rats.

Now it has been decreed that the rats  
must go. To accomplish this a new  
floor, composed of broken glass, a  
sprinkling of lime, and over four  
thousand pounds of cement and tiling, will  
be laid. It is calculated, however,  
through the combination. The plumbing  
and sewerage will also be done over.  
There will be a cold water supply  
in this all the perishable supplies for the  
restaurant will be kept.

An Ice Making Plant.  
In connection with the cold storage  
room an ice plant will be installed  
with an capacity of two tons. This will  
be the first ice making plant installed  
in the capitol and will add the duty of  
manufacturing ice to the many other  
activities of the capitol caretakers. It  
will also preserve the building of a still  
larger ice plant for chills the air cir-  
culated in the house and senate cham-  
bers through ventilating fans will bring  
fresh air into the kitchen. An im-  
provement will be a nice place, and  
it is all the perishable supplies for the  
restaurant will be kept.

Government Mapmakers.  
A United States geological party un-  
der the direction of Charles Hartmann,  
is now at work completing the map of  
the state in an area of about 230 square  
miles between Hanover and Wood-  
stock. N. H. undertaken largely  
through the efforts of Senator Proctor  
and Dean Fletcher of Dartmouth col-  
lege. At the conclusion of that work  
over Lake Winnepesaukee the Squam  
lake will be taken up. This work  
will not be completed this year.  
The maps will be useful to those inter-  
ested in forest preservation, to the  
north country, railroads and power  
companies.

Surveying Maine.  
A field party in charge of Hersey  
Munroe is now at work on topographic  
surveys of portions of Kennebec, An-  
drosburg, York and other counties in  
Maine. The party is now engaged in  
surveying an area of about 230 square  
miles between Hanover and Wood-  
stock. N. H. undertaken largely  
through the efforts of Senator Proctor  
and Dean Fletcher of Dartmouth col-  
lege. At the conclusion of that work  
over Lake Winnepesaukee the Squam  
lake will be taken up. This work  
will not be completed this year.  
The maps will be useful to those inter-  
ested in forest preservation, to the  
north country, railroads and power  
companies.

By a decision of Justice Stafford in  
the district supreme court it has been  
determined that this country already  
possesses a national art gallery. This  
decision is interesting, first, because  
no one realized that there was such a  
thing as a national gallery in this coun-  
try, and second, because it brings to  
Washington the Harriet Lane John-  
son art collection, which is intrinsically  
valuable, very beautiful and will  
form the nucleus around which a real  
national collection eventually will be  
built.

The pictures in the Harriet Lane  
collection have just been transferred to  
the custody of the Smithsonian institu-  
tion and will be on exhibition as they  
kind of small art gallery.

CARL SCHOEFEL.  
A day should be taken to throw out  
and carry away all dirt, rotten wood,  
decayed vegetables and other accumu-  
lations which have gathered in the cellar.  
Then brush down the cobwebs and  
wash with a bucket of lime water the  
walls and ceiling a good coat of white-  
wash. If a whitewash brush is not at  
hand, take an old broom that has been  
worn out and spread the whitewash  
on thick and strong. It will sweepen  
the dirt in the cellar, the parlor and  
the bedroom, and it may save the  
family from many afflictions.

Washing Silk Stockings.  
Make a lather with lukewarm water  
and good soap. Put the stockings in  
this, adding a teaspoonful of vinegar  
to a gallon of water, if they are deli-  
cate colors. Let soak ten minutes, then

Bardstown, is cut off from the  
world as far as telephone con-  
nection is concerned. Owing to  
a "falling out" between the com-  
pany and the town council all of  
the telephones have been  
taken out and the exchange  
closed. No communication  
whatever can be had with the  
town over the telephone lines  
since last Saturday night.

Mr. Byron Croake has sold

Grundy avenue to Mr. George  
Tucker for \$2,000. Possession  
given Jan. 1st, 1907. W. R.  
James has sold his farm, one

Mr. E. W. Henry representing  
the Hasting Industrial Co. of  
Chicago, is here for the purpose  
of forming a company and put-  
ting in a creamery plant at  
Springfield. A creamery at this  
place would be a good enterprise  
for the town and would be of  
particular benefit to the farmers,  
especially those who keep milk  
cows. Mr. Henry has a practical  
proposition to offer and he  
has received encouragement from  
the business men of the town  
as well as some of the farmers.

Alex Haydon, a negro, was  
brought here Monday by an  
officer from Louisville and turned  
over to the authorities here to  
answer the charge of house  
breaking. During the Spring-  
field Fair some one broke into  
the house of Mr. J. R. Keene in  
the St. Rose neighborhood and  
stole a suit of clothes belonging  
to Mr. Keene. It was in the  
day time and there was no one  
at home. The thief also helped  
himself to a cold chicken which

had been cooked and set aside  
for lunch. Circumstances point-  
ed to Haydon as the thief and he  
disappeared from the neigh-  
borhood. He was located in  
Louisville where he was serving  
a short term in the work house.  
Upon his release from the work-  
house the prisoner was brought  
to this place. Haydon's exam-  
ining trial will be held before  
Judge Litsky to-day.

There was a special session of  
the Washington County Fiscal  
Court held Monday. The object  
of the session was to consider  
some matters pertaining to the  
bridges of the county. Report  
was received from Engineer  
Simpson Roberts on the new  
bridge at Maud. It was shown  
that it is necessary to finish  
the approach to the bridge and  
Square Nimrod Hendren was ap-  
pointed to superintend the work  
according to the estimates fur-  
nished. The sum of \$450 was  
appropriated for this purpose.  
Bids were received from several  
bridge companies for building a  
bridge across Long Run creek on  
the Perryville pike between  
Texas and Jenson. The con-  
tract was awarded to the Cham-  
pion Bridge Co. of Cleveland,  
Ohio. The bridge is to be of  
steel 92 feet long with a 12 foot  
drive way and is to cost \$170.
